

SHOPPING CART CASTERS

SC,S4 Series

Zinc

FEATURES:

SHOPPING CART CASTERS are designed specifically for the especially harsh demands of this industry.

1. Premium Polyurethane:

Specifically formulated for longer life and greater rolling ease in tough specialized applications seen in the shopping cart market.

2. Hub design:

Minimizes the debris carrying characteristics sometimes seen with competitive wheels.

In addition to superior shock handling capability and rollability this bearing is custom designed to withstand the several lateral load conditions that are typical in shopping cart environments.

WHEELS:

4-S4-415P-53 Zinc

STANDARD ROUND STEM SIZES	
Round Stem Number	Dimensions
51	.875 × 2-1/8
53	1 × 2-1/2

5-SC-415P-21 Zinc

STANDARD THREADED STEM SIZES	
Threaded Stem Number	Dimensions
21	1/2 - 13 × 1
